

SKYPAD ALPHA 2

ALPHA 2 is the newest addition to the SKYPAD mobile internet devices from SKYTEX. SKYPADs are sleek, portable and price competitive mobile computers running the latest mobile operating systems.

ALPHA 2 is a full featured Android tablet. Running on a 1.2GHz ARM Cortex-A8 CPU, with a responsive capacitive 5-point multi-touch interface, and powered by Android 2.3.4, ALPHA 2 offers a great user experience at an exceptional price.

Apps, apps and more apps...

Android has leagues of developers working on some of the hottest new apps and games. With the GetJar Market pre-installed on ALPHA, over 150,000 apps are just a touch away.

Entertainment Powerhouse

With Alpha 2's next-gen graphics processor, playing games, streaming movies and music is smoother than ever. You can even enjoy playback of 3D HD movies on your HDTV via Alpha 2's HDMI 1.4 port.

Webcam and Mic

Download Skype™ or Fring® from GetJar and use the built-in camera and microphone as a fun way to stay connected with friends and family.
